### What our clients say:

*“Our client, a national, well-known service organization discovered that an individual or group of individuals was infringing on their trademark by placing ads using very similar company names. Unsuspecting customers called these companies believing they were hiring our client. Prior efforts by several investigative firms were unsuccessful in identifying the parties involved. We hired Integras, and not only did they identify the parties involved, but their investigation also identified the mastermind and put an end to the operation.”*

— Partner, Commercial Litigation, New York, NY

*“We weren’t sure it was worth pursuing a multi-million-dollar claim until we hired Integras to conduct an asset search. Based on their findings, we were able to proceed with confidence.”*

— Managing Partner, New York, NY

*“The team at Integras has great communication skills. They take difficult concepts and present them in a way that is very easy to understand. They are thorough, responsive and trustworthy. And they do it all at a very reasonable cost. I can recommend them without reservation.”*

— Attorney, National Law Firm
